

## MY REVIEW:

I LOVED this book overall. I don't really read too many sci-fi books that I like, let alone love and this was an amazing book. The writing was well written and very engaging as a reader. I loved the character of Emyr as the MC. He is such an interesting character, always on his own and alone. I also liked when Ebba meets Emyr for the first time. The way that Ebba talks and interacts with people is so interesting. "On the list he goes", I loved that line. That ending is amazing and very fitting for Emyr and for Ebba.

I hope that there is a continuation of this story in the future as I really liked this book overall and am curious to see what happens with Emyr and his ending.

As always no spoilers here in my reviews, READ this book you will love it if you love sci-fi books!
